Classification:	<p>Hypodermic syringes with needles are Class 2A devices, using rule 6 of Annex 9 of the MDD 93/42/EEC. Rule 6 states; "All surgically invasive devices, for transient use, are in Class 2A unless one of the indents applies". None of the indents apply in this case. Hypodermic syringes without needles are Class 1 sterile or non-sterile with a measuring function, per Rule 1 of Annex 9 of the MDD 93/42/EEC. Rule 1 state: "All non-invasive devices are in Class one unless one of the rules set out hereinafter applies". Subsequent rules do not apply.</p>
Conformity Assessment Route:	Annex V and VII

We herewith declare that the above mentioned products meet the provisions of the Council Directive 93/42/EEC of 14 June 1993 concerning medical devices as amended with 2007/47/EC - OJL 247, 21/09/2007. All supporting documentation is retained under the premises of the manufacturer.
